Technologies used Identity Manager from One Identity Version 6-8

T-SQL

VB.Net

Technology Specialist

Computacenter

Feb 2015 - Sep 2016 (1 year 8 months)

Operation of User Lifecycle Management (ULM) at Ottogroup in Hamburg.

The ULM bundles many independent IT offers from Ottogroup, the operation of which requires a profound knowledge of the underlying customer-specific technical processes. This includes identity management (IDM) topics such as the user lifecycle of internal and external employees, the associated rights management based on customer-specific target systems such as NOA / Core, OCN, NTOV, telephone system (TK), file service management, administration of dynamic AD groups ("Dynamic groups"), Cherwell. Requirements analysis, implementation, monitoring and redesign of customer-specific "identity management" processes.

Technology Associate

Computacenter

Oct 2014 - Jan 2015 (4 months)

Young Professional

Computacenter

Apr 2014 - Sep 2014 (6 months)

Training in the field of identity management with specialization in DELL (formerly Quest) One Identity Manager.

Additional technical training in the areas:

SQL (MS / Oracle), Active Directory, Scripting (Bash / Powershell), process modeling with BPMN / UML / Visual Paradigm, object-oriented programming (Java / C # / VB), versioning / bug tracking tools

Non-technical Training / certifications in the areas:

process design, project management, ITIL

Intern

Computacenter

Jan 2014 - Mar 2014 (3 months)
